- Cyber Risk Mgmt
- AI Cyber Analytics
- Secure Coding
- Auto Pen Testing
- Mobile Forensics

Dylan Owusu Afriyie

Cyber Intelligence Analyst • MSc Cybersecurity & Digital Forensics
Candidate • ISC2 CC

PROFILE

Master's candidate in Digital Forensics & Cybersecurity and Management Information Systems graduate with practical experience in cyber intelligence operations, HR process automation, graphic design, and information security. Currently completing an industrial attachment with the Ghana Police Service Cybercrime Unit, authoring intelligence reports for active investigations, conducting financial tracing through mobile money networks, and evaluating mobile forensic tool suites. ISC2 Certified in Cybersecurity (CC) with an advanced Penetration Testing credential (88% distinction). Seeking to apply field-tested cyber intelligence and digital forensics skills alongside information systems expertise to drive innovative, scalable solutions in enterprise security practices.

EXPERIENCE

Cyber Intelligence Analyst – Industrial Attachment

Nov 2025 – Present
Ghana Police Service, CID Headquarters | Cybercrime Unit, Accra

- Authored master cyber intelligence reports for active transnational fraud investigations, structuring threat-actor network analysis, incident timelines, financial forensics breakdowns, and actionable targeting directives for investigating officers and prosecutors.
- Conducted financial tracing by mapping payment flows across multiple accounts, identifying fund consolidation patterns, and structuring evidence for court-order applications.
- Evaluated mobile forensic suites (Cellebrite UFED, Oxygen Forensic Detective, MSAB XRY, GrayKey) and IMEI-based carrier lookup platforms for unit procurement, producing a general-purpose technical reference brief.
- Designed structured victim interrogation questionnaires ensuring evidence collection compliance with the Electronic Transactions Act (Act 772) and Cybersecurity Act (Act 1038).
- Performed behavioural and stylometric analysis of suspect digital communications to assess single-operator hypotheses across multiple online personas.
- Analysed Call Data Records (CDRs) and OSINT to map suspect communication networks and support international escalation requests to EOCO and INTERPOL.

Human Resource Co-ordinator

Sep 2022 – Nov 2023

Margins Group | Accra Central

- Spearheaded automation of HR processes through fillable PDF forms and Excel-based tracking systems (VBA/Power Query), measurably improving workflow efficiency.
- Maintained data security protocols for sensitive employee PII and digital access controls for HR records.
- Collaborated with HR Business Partners to streamline recruitment pipelines and enhance onboarding procedures.

Graphic Designer

Jun 2015 – Sep 2022

Digital Point | Tesano, Accra

- Managed end-to-end document processing for law enforcement agencies, ensuring strict confidentiality and data protection compliance.
- Designed legal agreements, reports, corporate communications, and

branded materials using Adobe Illustrator, Photoshop, and industry-standard tools.

- Orchestrated office operations including file digitisation and systematic filing protocols; provided technical support and workflow optimisation.

Graphic Design Assistant (Intern)

Jun 2018 – Sep 2018

FON Packaging Ventures | Spintex, Accra

- Created precision-engineered packaging designs, translating client specifications into print-ready production files using industry-standard software.
- Collaborated with the production team to develop high-quality embossed design plates and ensured colour accuracy across print runs.
- Generated detailed progress reports and maintained client communications throughout project lifecycles.

SECURITY LABS

Projects prototyped to practise vulnerability discovery, exploitation, and remediation in controlled environments.

Afriyie Bank – Vulnerable Web Application Lab

- Prototyped a deliberately vulnerable banking web app simulating authentication, session management, and input handling attack surfaces.
- Conducted SQL injection, XSS, authentication bypass, and IDOR testing; documented findings with CVSS scoring and OWASP Top 10 remediation.

Image-to-PDF Converter – Secure App Prototyping Lab

- Built a cross-platform app (Flutter/Dart) with Python prototype; conducted full security audit including APK reverse-engineering, ADB temp-file checks, DoS stress tests, and CSP validation.
- Implemented mitigations: input limits, secure temp-file cleanup, streaming processing, CSP & header hardening. Documented reproducible lab steps for stakeholders.

EDUCATION

MSc. Digital Forensics & Cybersecurity (Candidate) Feb 2025 – Present

Ghana Institute of Management & Public Administration (GIMPA) | Accra

- Modules: IT Auditing; Internet & Mobile Forensics; Cyber Crime & Risk Management; Ethical Hacking.
- **Capstone:** Mobile Forensics — Android Data Acquisition & Analysis with chain-of-custody documentation.

Cybersecurity Short Course

Nov – Dec 2024

NCC Education | Accra

- Physical security, encryption, disaster recovery, network security and threat mitigation via hands-on virtual labs.

BSc. Management & Information Systems

Sep 2018 – Sep 2022

Ghana Institute of Management and Public Administration | Accra

- Key modules: Information Security, Human-Computer Interaction, Business Intelligence, Entrepreneurship.
- **Final Year Research:** "The Impact of Accounting Information Systems on Company Profitability." Supervisor: Solomon Odei-Appiah.
- Course Representative (2020–2021).

West African Senior School Certificate (WASSCE) Sep 2015 – Aug 2018

St. Peter's Senior High School | Kwahu, Ghana

- Elective Mathematics, Physics, Chemistry, Geography, Integrated Science.
- Honours: Most Disciplined Student; Best Student in Geography.
